

WEDNESDAY 29 JULY 2020: IMPROVEMENTS, BUT IMPORTANT PROBLEMS PERSIST.

Residents in all non-metros reported improved access to basic services, especially water, but Emalahleni and Msunduzi still fall short across all the services. Most concerning in these municipalities is the limited water access, the lack of municipal provided sanitation and lack of toilet cleaning where residents do have access to municipal toilets.

IN YOUR INFORMAL SETTLEMENT OVER THE LAST 7 DAYS...

HOTSPOTS

- Many non-metro residents report inadequate numbers of taps and poor maintenance resulting in many residents having to walk long distances to collect water.
- Despite the new Ventilated Improved Pit (VIP) toilets, Emalahleni and Msunduzi residents report that the lack of municipal provided toilets presents a serious health risk. In Knysna some residents are also left to clean the communal toilets themselves without the equipment needed to do so safely.

GOOD NEWS!

- Msunduzi municipality is currently installing 90 VIP toilets in Ezinketheni informal settlement. This has been long-awaited and will improve living conditions.
- Witzenberg saw a significant improvement in toilet cleaning over the last few weeks.
