2022: Thank you for helping us make progress in STELLENBOSCH

This month, we recognise the impact of Asivikelane Western Cape in Stellenbosch and thank the community members, government officials, donors and many other stakeholders who contribute to the project and support us. Since initiating this work in Stellenbosch in April, the campaign has made progress towards bringing about better services to informal settlements. Persistent community engagement with government has been core to this approach. We will build on the gains achieved this year for a greater impact in 2023.

There were 64 instances of improved services reported in the last 8 months:

- 2 water
- 53 sanitation
- 9 refuse removal

Over the last 8 months Asivikelane Western Cape in Stellenbosch:

- Grew from 3 to 18 informal settlements
- 145 registered residents answered our monthly survey
- 77% are female
- Had more than 15 government engagements
- Held more than 18 community engagements
- Published 8 releases

Asivikelane Western Cape is a partnership between IBP South Africa and Development Action Group (DAG)
